Manual Lymph Drainage
Breast Massage Consent Form

The Texas Administrative Code, Title 25, Part 1, Chapter 141, Subchapter B, Rule 141.5, Paragraph (h) states that this initial consultation document shall include the following information:

1.A statement of the type of massage techniques to be used in the session.

In this session, manual lymph drainage techniques will be applied to the breast area - the right and left anterior trunk quadrants (chest).

2.The massage therapist will not perform breast massage on female clients without the written consent of the client.

Signing this document signifies written consent to breast massage. The therapist will also ask for your permission verbally before beginning the session.

3.Draping will be used during the session.

For a complete drainage, the therapist will uncover one breast at a time.

4.A statement that if the client is uncomfortable for any reason, she may ask the therapist to stop the massage and the therapist will do so.

Signing this document signifies understanding of this statement. As the therapist, I also reserve the right to terminate the session in the event of any sort of abusive behavior from the client. If client's misbehavior should result in an abbreviated session, the client will be expected to render full payment.

5. The parts of the client's body that will be massaged or the areas that will be avoided during the session include indications and contraindications.

This form is supplemental to any and all intake forms that are required to be completed by the client.

I have read and agree to the above information and requirements.
